

RISK MANAGEMENT

The school board recognizes its responsibility for protecting the school district's property from loss.

The superintendent or the business administrator shall be responsible for establishing a risk management and insurance plan covering all property and risk related to the performance of the educational and service missions of the system. This risk management and insurance plan shall include means for identifying, eliminating and reducing risk.

The school board charges the superintendent and/or business administrator with the responsibility of updating the annual risk management and insurance plan. This update shall include a description of the school district's current risk management program and a summary of the existing insurance coverages. A copy of the risk management plan is located in each building administrator's office and at the office of the superintendent of schools. The plan shall be subject to review by the school board upon request.

The school board authorizes the superintendent to seek professional risk management advice, if necessary, in order to develop, implement, maintain, and audit an effective risk management program for the system.
