

NEW PROFESSIONAL STAFF NOMINATED FOR ELECTION

The superintendent will present to the school board, in written format, all pertinent information regarding the nomination and potential election of new professional staff. Ideally, this information should be received by the school board for their review prior to the next school board meeting.

The following information will be included;

1. name, present employment history, current certification, step, and salary;
2. references contacted and results;
3. criteria for employment as to years of experience as annotated in 189:14-a (II);
4. verification of criminal record background check, medical examination, Mantoux test, and all other required employment information.

No potential employee will begin employment prior to a school board election. All elections must be made at a regular or special school board meeting.

New hires in professional staff will be invited to the September school board meeting.
