

PHYSICAL EDUCATION PARTICIPATION

No child shall be excused from regular participation in physical education, except for a medical reason with the written notice of a duly licensed physician. The medical excuse shall be subject to building administrator approval, in which case an alternative plan shall be developed. The school board may request a second opinion from a duly licensed medical professional.

Temporary excuses, on a day-to-day basis, may be granted by the teacher, or school nurse, upon the request of the parents.
