ADVANCED COLLEGE PLACEMENT

It is the belief of the school board that any student who is capable of, and wishes to do, college-level work, should be permitted to do so at no cost to the school district, including transportation.

Any student whose admission to a college level course is recommended by his/her counselor, under direction of the Director of Pupil Services, may enroll in a course at an approved college for college credit. If the student wishes to receive high school credit for the course, he/she may request permission from his/her building administrator, through the counselor, to have the course credits applied toward high school graduation requirements.
